Name:

Good Character

What is a good character?

As Muslims, we want to have good character – this means being kind, honest, helpful, patient and always doing what pleases Allah and our beloved Prophet Muhammad ﷺ.

Having a **good character** means doing the right things even when nobody is watching. It means speaking nicely, forgiving others, being polite, and not hurting anyone with our words and actions. In Arabic, this is called Akhlaaq.

Akhlaaq

Our Prophet Muhammad ﷺ had the **best character**, and Allah loves when we try to be like His beloved prophet. Good character makes us good friends, good family members, and good Muslims!

A special Hadith

The Holy Prophet ﷺ said,

"The best among you are those who have the best character."

(Bukhari)

What does this hadith mean?
This means the people Allah loves the most are those who are kind, respectful, polite, and good to others. Having good character is more important than just looking good or having lots of toys. It means being a good person on the inside!
